

# OilClean MOF 6000

## *The Complete Oil Flush Service Center*

- ▶ Dynamic Flushing Process Cleans Entire Lubrication System
- ▶ Works with Spin-on and Canister Style Oil Filter Assemblies
- ▶ Large Capacity Tank:
  - 16 Services for Gasoline
  - 8 Services for Diesel
- ▶ Service Benefits:
  - Improves Gas Mileage
  - Maximizes Engine Performance
  - Minimizes Exhaust Emissions

*The OilClean Service Kit™ is specifically formulated to be used with the OilClean System!*

Part No. 500-6000

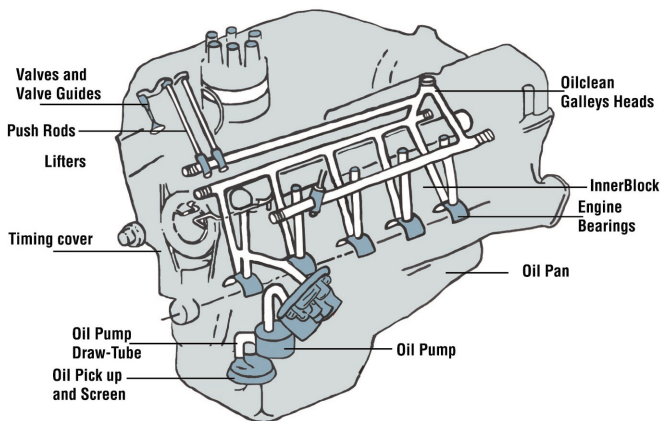

# ▶▶ MOTORVAC OILCLEAN MOF 6000

## Why use the MotorVac OilClean System

From the very first time an engine is started, deterioration and contamination of engine oil begins. As an engine and its oil heats up and cools down, viscosity and thermal breakdown occurs. By using the proprietary OilClean Cleaning Detergents with the OilClean Engine Flush machine, the sludge and contaminants that build up in an engine over time are removed. The entire lubrication system is cleaned including: oil galleries, valve train, oil pan, timing cover, oil pump and oil screen. Anywhere oil goes, OilClean will follow it and clean it.

## How MotorVac OilClean Works

The OilClean system connects to the engine through its oil filter assembly. select either the 16oz. (.47 l.) or 32oz. (.95 l.) service and the chosen amount of detergent automatically infuses the system. A powerful-yet-safe mixture of OilClean detergent passes throughout the lubrication system of the engine. As the system runs, you will see the cleaner at work in the filter bowl. Finally, a safely regulated air supply (from the on-board air tank), back flushes the return line and system and cleans out any remaining sludge or contaminants. Add new oil and a new filter and the job is complete.

## Safety

Safety is always a major concern and to that end the OilClean incorporates built-in safety features. An easy to read oil pressure gauge is accompanied by a low pressure warning alarm to prevent damage to the engine. Two on-board filters ensure clean oil supply to the engine.

## Features & Benefits

- ▶ Portable 12-volt DC operation - rugged, yet lightweight
- ▶ Microprocessor controlled
- ▶ Reservoir fluid level window
- ▶ Low pressure warning light, low pressure audible alarm
- ▶ End of service alarm
- ▶ Industrial grade hoses
- ▶ Patented spin-on adapters
- ▶ On-board air compressor system
- ▶ Electronic flow meter

## Technical Specifications:

- ▶ Power Cord - 18' (5.5m.)
- ▶ Timer - Electronic, 0-30 Minute Adjustable
- ▶ Power Supply - 12 Volt DC Operation
- ▶ Circuit Protection (air compressor) - 25 amp circuit breaker
- ▶ Circuit Protection - 10 Amp Circuit Breaker
- ▶ Circuit Protection- 5 Amp Autoreset Breaker
- ▶ Hoses - 15' (4.6 m.) Output and Return with Quick Coupling
- ▶ Tank- 2 Gallon (7.6 Liters) Solution
- ▶ Pump- 60 Gallons per Hour (227 lph), Low Pressure
- ▶ Gauge - 3 1/2" dia. Oil Pressure (0-100 psi/0-6.9 bar)
- ▶ Gauge - 1 1/2" dia. Line Pressure (0-160 psi/0-11 bar)
- ▶ Gauge - 1 1/2" dia. Air Discharge (0-60 psi/0-4.1 bar)
- ▶ Filter - Canister (5 micron)
- ▶ Ship Weight - 85 lbs. (38.5 Kg.)
- ▶ Ship Width - 24" (60.96 cm.)
- ▶ Ship Depth - 19" (48.26 cm.)
- ▶ Cabinet - Rotomolded
- ▶ One Year Limited Warranty

## OilClean Solutions & Filters

MotorVac OilClean Detergent is specially formulated to be the safest, most effective engine oil system cleaning detergent available. The detergent encapsulates all of the sludge and contaminants and leaves the engine as if just assembled. The special 5 micron rated filter is designed specifically for automotive use, it's not taken from another industry as a "can do the job filter". MotorVac's filters trap and suspend any sludge or contaminants that pass through the system.

## Adapter Sets/Accessories

STANDARD KIT  
4-ONE GALLON CONTAINERS  
32 FILTERS  
Part No. 200-1027

STANDARD KIT (SINGLE USE)  
12-14 OZ. BOTTLES  
12 FILTERS  
Part No. 200-1026

SPIN-ON ADAPTER KIT  
(STANDARD)  
Part No. 200-3112
