

INSTALLATION AND OPERATING INSTRUCTIONS

LIFT TABLE
MODELS: TA2600

INSTALLATION:

Remove your new Lift Table from its shipping container. Install the Pull handle to the bottom frame on the lift table. Now locate the air hydraulic pump unit. Install a ¼ NPT air fitting to accept your shop air line. The Lift Table operates at 90-120 PSI Max. Ensure the air is clean and free of water and contaminants. Connect the air line and depress the air pump pedal. The pump should activate and the lift table will start to rise. To stop the lift release the pedal at any time. Now take the lift table to full extension. Then to lower tilt the handle to the left and the lift table will lower. Again to stop simply release the control handle and the lift table will stop.

CAUTION
Always ensure all hands and tools are free and clear of the scissors assembly. PINCH POINTS CAN CAUSE SERIOUS HARM TO PERSONNEL.

OPERATION:

Always follow vehicle manufacturer's recommended service procedure for removal of components.

1. Position Lift Table under the vehicle. Once in position, lock casters so Lift Table remains in place.
2. Depress foot pedal to raise Lift Table. Once Table is at desired height, remove components.
3. When ready, lower Lift Table by tilting foot pedal and Lift will lower.

To stop lifting procedure simply release control handle and Lift will stop.

MAINTENANCE:

Daily oiling of the air pump for all hydraulic models is required. Use air tool oil and simply place a few drops into the air inlet on the pump. Replace oil in reservoir every 6 months and clean down valve assem. Regularly check the Hydraulic hoses for cuts or cracks. If found replace hose. Check fitting for leaks. Check fluid level in pump unit. Regularly lubricate the main pins, roller bearings and any available grease zerks. To remove debris and dirt simply wipe the jack with a wet rag.

DO NOT WASH WITH POWER WASHER OR USE DETERGENTS OR OTHER CORROSIVE AGENTS.

WARRANTY

Stan Design Inc Warrants to the original owner that Models TA2600 series Lift Table will be free from defects in workmanship for a period of five (5) years from invoice date under normal use and conditions, provided the product is installed and/or used according to our specifications. Damage or failure of any part due to electrolysis, corrosion, or faulty maintenance is not covered by this warranty. This warranty excludes the following: air valve and assemblies, lifting accessories, roller bearings, hydraulic ram, pump and assemblies, wheel assemblies and lock assemblies. The preceding items carry a six (6) month warranty from date of invoice.

The original owner is responsible for any transportation charges incurred in getting the defective items to an authorized distributor or repair depot. If the items returned are found to be defective by Stan Design Inc, Stan Design Inc will pay for the reasonable freight costs to return the repaired items to the original owner for the first twelve (12) months only. The purchaser will bear the costs of transportation after the first twelve (12) months and for the remainder of the warranty. The warranty is a parts and on-site labour warranty for the first twelve (12) months only. After the first twelve (12) months, a parts only warranty applies to the original purchaser only and is in no way transferable. To make a claim under this warranty, please contact your equipment distributor or an authorized warranty depot. Original proof of purchase in the form of an invoice or sale receipt must be supplied with any request for warranty repair.
