

MECHANICAL LOCK LADDER

25 heavy-duty safety locks every 2.5" allow technicians to work at an ergonomic height to increase productivity and minimize fatigue.

WARNING LIGHTS

Green/yellow lights make for easy lock-ready identification

ADJUSTABLE CARRIAGE ASSEMBLY

The carriage assembly has adjustable arms designed with a positive grip nonskid pattern that prevents movement between the tire and the carriage arms. The carriage assembly is adjustable to five positions.

HEAVY-DUTY TOW DOLLY

Heavy-duty tow handle and spring loaded wheels make moving and aligning individual lift units simple and easy with little effort allowing for tight radius turns.
